6. BLOQUEZ LE TABLEAU GLISSANT LORSQU'IL N'EST PAS EN USAGE.
7. NE PAS ESSAYER DE DÉBARRASSER LES PIÈCES BLOQUÉES DANS LA ZONE DE TRAVAIL DE LA LAME.
8. SOUTENEZ BIEN LES PIÈCES LONGUES OU LARGES.

**WARNING**

Ensure that you fully understand the manufacturer's instruction manual and have received sufficient training in the use of this machine and the particular safety procedures to be observed.

Persons under the age of 18 years should not operate this machine except under supervision during a course of training.

**BEFORE OPERATING THIS MACHINE ENSURE THAT**

- All guards and fences are securely fitted and correctly set in accordance with the current Regulations.
- Tooling is of correct type, securely fastened, sharp and direction of rotation is appropriate.
- Correct spindle speed and feed is selected (for the cutter equipment).
- Loose clothing is either removed or fastened and jewellery removed.
- Suitable eye and push sticks are available for use where appropriate.
- The working area is well lit, clear and unobstructed.
- Extraction equipment is switched on, properly adjusted and working efficiently.
- Suitable protective equipment is available, e.g. goggles, ear defenders and dust mask.

**WHEN SETTING, CLEANING AND MAINTAINING THE MACHINE:**

- Ensure all moving parts of the machine are stationary before setting, cleaning or making any adjustments.
- Report immediately to a person in authority any machine malfunction or reported hazard. Do not attempt to repair the machine unless competent to do so.
- Ensure all power sources are isolated before any maintenance work commences.
